SECOND COMMUNICATION RE NON-RECEIPT OF OFFICE ACTION

Assistant Commissioner of Patents
Washington, D.C. 20231

The undersigned attorney was contacted via telephone by Examiner Haddad on August 23, 2002 to inquire if the instant application was abandoned for failure to file a response to an Office Action mailed by the Patent Office in January, 2002. The undersigned has checked the physical file wrapper for the instant application in the Genentech Patent Department and was not able to find any documentation or papers relating to such Office Action. The undersigned also checked the patent docketing database in the Genentech Patent Department and found that the January, 2002 Office Action referred to by the Examiner was never received by the Patent Department at Genentech.

When Patent Office mail is received by the Patent Department at Genentech, the documents and relevant dates for response are recorded by docketing administrators and entered into a computer database which contains all docketing records for pending and abandoned patent applications filed by Genentech. Attached is a printout of the record for the instant application, and it shows that there is no entry for any Office Action mailed by the Patent Office in January, 2002. The

undersigned hereby states that this record printout is a complete and accurate record for the documents concerning the instant application.

It is respectfully requested that the Patent Office re-mail the Office Action and re-set the date for the response to that Office Action. If any further information is needed by the Examiner, he is invited to contact the undersigned at the telephone number below.

Respectfully submitted,

GENENTECH, INC.
